

# The Modular Digital Learning Kit.

Empower your employees with effective yet affordable training and accessible knowledge through your own knowledgebase or e-learning platform, all in your individual corporate design. Enjoy the benefits of fully-fledged video editing, exciting visualisation options, an authoring system plus access rights management and structured content repositories for your videos, presentations, images, documents, and so much more.

Add modules as your requirements grow for versatile flexibility and integration with other solutions such as the Mobile Film Studio.

## MODULE: LEARNING MANAGEMENT SYSTEM (LMS)

- Your own corporate design
- Tutorials and tests
- Progress and activity monitoring
- Built-in or plugged-in user management
- Voting, survey and quiz functions
- Virtual classroom, webinars

## MODULE: SIMULATION AND AUTHORING SYSTEM (SAS)

- Universal and intuitive recording for a wide range of different simulations
- Visualise complex processes
- Re-recording for easy content updates

## MODULE: VIDEO MANAGEMENT SYSTEM (VMS)

- Secure management and deployment—also for mobile devices
- Import and edit your own content without specialist knowledge
- Custom time marks and search function for down-to-the-second video navigation

## MODULE: AUGMENTED REALITY (AR)

- Untangle complex scenarios with 3D animations
- Interlink all multimedia content (text, audio, images, video)
- Experience AR on mobile devices
- Custom AR development
