IBM
Platinum Partner

ILMT Solution Adivsory.

Leave time-consuming licence data maintenance and quality management to our experts. For more transparency in the confusing licence jungle.

We support you in the operation and maintenance of the IBM Licence Metric Tool (ILMT) you use. We focus on the quality management of the solution and ensure that the configuration of the solution, the scope, transfer and processing of the data are correct and that the calculated results are accurate.

We also offer technical support for ILMT and help you with the roll-out, the implementation of updates and the realisation of requirements. We take care of the time-consuming maintenance of your IBM contracts and licences so that ILMT is always up to date and you can use the information as a basis for your optimisations and investments.

YOUR ADDED VALUE WITH ILMT SOLUTION ADVISORY.

| Operation and maintenance of the ILMT Solution. | Ensuring quality management. | Current licence data and reports. | Support from experts. | Regular updates. |

Quality management → **Licence data maintenance** → **Accounting & preparation of reports** → **Updates & support**
