¹ Removable power supplies, modules, and accessories such as antennas, fans, power cords, and so on may have different warranty coverage than the host device. See the [HPE Aruba Networking Product Warranty Quick Reference Guide](#) for more details.

² Response time is based on commercially reasonable effort and subject to a daily shipment cutoff time. In some countries and regions and under certain supplier constraints, response time may vary. Contact your local HPE service organization for response time availability in your area.

³ Technical support and configuration assistance are provided exclusively during the initial 90-day warranty period. Following this period, phone and/or digital support will be available for the remainder of the warranty term solely for diagnosing hardware fault required before

submitting a Return Merchandise Authorization (RMA). Any additional configuration assistance or technical support beyond these services will require a separate services contract.

⁴ Includes all generally available software/OS releases offered for the specific products listed, when and if available, for as long as the customer owns the product, except where noted. Some software releases may require additional or new hardware. Customers who desire specific feature updates, patches, and fixes to be prioritized into future releases should purchase the appropriate support services from Hewlett Packard Enterprise. Products marked with n/a require an active support contract to download any software updates or upgrades.

*HPE Aruba Networking Operating System - 10 products require a subscription for device management functions and software updates.

⁵ For products purchased after December 1, 2014, the warranty extends only for as long as the original end user owns the product. Includes coverage of any built-in fans and power supplies for the entire warranty period. You may be required to provide proof of purchase or lease as a condition of receiving warranty service.

⁶ Includes all software updates offered for the licensed version, when and if available. Software upgrades will require purchase of appropriate SKU, packaged support services, or contract.

⁷ For products purchased after December 1, 2015, the warranty extends only for as long as the original end user owns the product and is limited to five (5) years from the end of sale date.

⁸ For the first 30 days from shipment, HPE will provide same day ship advanced replacement for the covered hardware products. After thirty (30) days from shipment through the remaining warranty period, HPE will ship a replacement product for any non-compliant product within 10 days.

⁹ Includes all generally available software/OS releases for as long as the original end user owns the product, up through three (3) years after the end of sale date.

¹⁰ These products are covered by 90 days of 24x7 phone support. Thereafter, only chat support is available for the remaining warranty period. Limited lifetime warranty (where applicable) extends only for as long as the original end user owns the product and is limited to five (5) years from the end of sale date. This warranty includes coverage of any built-in fans and power supplies for the entire warranty period. You may be required to provide proof of purchase or lease as a condition of receiving warranty service.

¹¹ The warranty extends only for as long as the original end user owns the product, up through five (5) years after the end of sale date. Includes coverage of any built-in fans and power supplies for the entire warranty period. You may be required to provide proof of purchase or lease as a condition of receiving warranty service. Select products may require registration of your product (serial number and contact information).

¹² Our software licenses are available in 1-year, 3-year, 5-year, and perpetual options to meet the diverse needs of our customers. To ensure continuous, uninterrupted service and access to the latest updates, it is highly recommended to purchase HPE Aruba Networking Foundational Care support along with the respective software SKUs. The HPE Aruba Networking Foundational Care support provides comprehensive technical assistance, software updates, and maintenance services for the duration of your license term, ensuring optimal performance and long-term value of your software investment. Note that the hardware product warranty beyond 1 year offering is tied to the duration of your FC care support plan, and perpetual licenses will require ongoing support to maintain warranty coverage beyond the initial purchase.
