BECHTLE

PLACETEL + CISCO WEBEX

All-in-one communication for large and small teams.

Placetel + Webex is the innovative all-in-one solution for all teams and all requirements. It unites a cloud phone system with absolutely secure team messaging and online meetings in streaming quality in one single tool.

Take your business communications up to the next level with Placetel + Webex and enjoy more flexible collaboration with customers and colleagues than ever before. From any device and any location. It only takes a few clicks to switch over from computer to smartphone and office to home.

Use the more than 150 functions in the cloud phone system, for example to create individual routing plans for optimum availability in mobile or home working scenarios. Send messages and files in real time and stay connected to your team with the instant messenger. Hold online meetings in never-before-experienced Webex quality, with a practical file and desktop sharing function that allows you to collaborate as you would in the office from any location.

Calling

The extensive phone system from Placetel with over 150 features and many integrations with the most important third-party providers. Make your first call within minutes.

Messaging

Secure team messaging for direct communication with colleagues, including ultra-fast data transmission, clever-message features and a useful chat history.

Meeting

With the video meetings from Webex, you can experience interference-free video calls in real time with high quality - you also have access to many helpful communication tools from the world market leader Cisco.
