## Holistic approach. 360° view on Modern Meetings.

Let's work together towards modern collaboration:

- How can you **benefit** from modern technologies and ways of working?
- How will you develop a **Modern Meeting strategy** for your business?
- How can you get **users on board**?

We address these questions and more together during a **workshop** in one of our Digital Workplaces. This way, you can gain an initial overview and take away personalised, vendor-neutral **recommendations** from our specialists.

## Services

- Documenting your **needs and requirements**.
- Live demonstration of a range of use cases and products best-suited to your situation in our showroom.
- **Feedback session** and next steps.
- Output: Detailed **solutions portfolio** and your personal **roadmap** to better meetings.
- Option for additional, personalised **workshops** for your users.
- If required, a **proof of concept** for the service(s) offered.

The experience is available on-site, virtually and in hybrid form.
