

tenfold: The central platform for digital identities.

With Bechtle as your IT partner, you not only benefit from the expertise and experience of one of Europe's leading IT service providers, but also from the close cooperation with tenfold, the innovative manufacturer of identity and access management solutions. Bechtle and tenfold complement each other perfectly to enable you to manage your digital identities efficiently, securely and transparently.

Simplify the management of your digital identities - with the support from Bechtle and tenfold.

With tenfold, you can manage user accounts and authorizations in all systems via a central platform. The automatic management of digital identities that users can access exactly the data and systems they really need at all times. that they really need at all times.

tenfold offers you the following advantages:

- Optimum protection for sensitive data thanks to role-based access control and audit trail
- Convenient user management through self-service functions for end users and automated workflows for admins
- Maximum transparency thanks to reporting tools and dashboards that give you an overview of all authorizations and activities at all times
- Flexibility and scalability by supporting over 100 systems running in your own network, in hybrid environments and in the cloud

How about experiencing the benefits of tenfold for your IT management yourself?

This is now possible! We provide you with a Proof of Concept (PoC) that you can use to test the functionality and user-friendliness of tenfold. With a PoC, you can try out how tenfold makes your IT tasks easier. You install tenfold in your company and test it for a certain period of time. This allows you to see for yourself how tenfold helps you to keep control of your IT.

ADDED VALUE TENFOLD POC.

With a tenfold POC you benefit from the following advantages:

Short implementation time

Testing in your own environment

Product free of charge for a limited period

Experience the possibilities yourself

Implementation of customer-specific use cases

Your strong IT partner.
Today and tomorrow.

BECHTLE
