

Information about the ARTICONA recycling programme

Recycling programme

With our ARTICONA recycling programme, we offer you the opportunity to easily recycle ink and toner cartridges, regardless the brand or manufacturer, whether they are empty, used, or defective.

Sustainability through recycling

By using our services, you are helping us to make a valuable contribution together to environmental protection. All cartridges that are processed through our ARTICONA recycling programme are recycled as much as possible, or properly disposed of. This service makes your life easier as we collect the cartridges from you free of charge, quickly, and easily.

Process

You can order eco boxes in our **online portal**, which are usually sent to you within 48 hours (working days). The boxes guarantee safe and clean transport and are also convenient for you to store the empty cartridges properly until they are picked up.

Please note the minimum quantities that apply for collection and the maximum weight of the full eco box (details can be found in the portal).

As soon as your eco box is filled and ready for collection, you can easily order the pick-up via our portal and select the time slot that suits you. You will then receive prompt feedback on the coordination of the pick-up so that it can be carried out efficiently and easily for both parties. At the same time as requesting a pick-up in the portal, you can of course also order new eco boxes.

We then take care of the professional recycling or disposal

Participation

Participation is simple and self-explanatory via our portal:

www.abholung.net/articona

If you have any questions, please do not hesitate to contact us at support@articona.eu

It's that easy!

-  1 Request your eco box(es) free of charge via www.abholung.net/articona/en or the QR code shown.
-  2 Collect your used ink and toner cartridges in the eco box.
-  3 As soon as the box is filled and the minimum quantity reached, request the collection of the cartridges again via the portal. You are welcome to reorder new eco boxes at this stage.
-  4 You will then be contacted to coordinate or confirm the collection of your filled eco box.
-  5 The free pick-up takes place as agreed and we will take care of the rest.

Thank you for your contribution to sustainability!
