

Open Clouds for Research Environments (OCRE) and Bechtel Services for Azure.

BUILD AND DEPLOY SECURELY SOLUTIONS ON MICROSOFT AZURE WITH BECHTEL.

The OCRE project was launched under the auspices of the pan-European Organization - GEANT. OCRE pursues the ambitious goal of the European research community to make efficient use of the potential of cloud-based services for its work. A framework agreement is the basis for the institutions and companies in 40 European countries to be able to quickly enter the cloud with little administrative effort.

Bechtel Schweiz AG is the exclusive point of contact in Switzerland to consume Microsoft Azure resources under this contract. With its new Azure Datacenters in Switzerland, you can leverage the power of Microsoft Azure, at the best possible costs, supported locally by experts.

BECHTEL SERVICES TAILORED FOR EDUCATION AND RESEARCH.

To support Education and Research customers, Bechtel had devised four groups of service offerings aimed at accompanying Education and Research on their journey to the Azure Cloud. Get the best prices, on the best Public Cloud, delivered by skilled resources. With a growing list of more than 30 services offered in Switzerland, you can confidently move to Azure knowing you are in expert hands.

- And many more...

ALIGNED AND SUPPORTED BY MICROSOFT’S OWN AZURE PROGRAMS.

BECHTLE AND MICROSOFT PARTNERSHIP.

The partnership between Bechtle and Microsoft has a long and successful tradition. Together, we develop solutions that make the difference. Bechtle has 12 Microsoft Gold Partner statuses across all areas. Modern Workplace and Azure products are sold by all 70 Bechtle companies to over 80,000 customers. Bechtle has trained more than 600 consultants and sales specialists in Azure and Microsoft 365 to date, and has filed more than 1,700 Microsoft certifications.

As the new Azure Expert MSP, Bechtle is one of Microsoft’s strongest partners in the world in realizing digital transformation projects for joint customers. In addition to the Gold partner status in the cloud platform and participation in the manufacturer’s Cloud Solution Provider (CSP) program, the prerequisites are the technical and organizational competences audited via an independent audit as well as successfully implemented and operated customer environments. Bechtle offers a dedicated portfolio of Professional and Managed Services for the entire lifecycle of Azure platform cloud services.
