## SAMplicity Plus

Software Asset Management, unfortunately, isn't a one-off activity. Software changes constantly, infrastructure gets upgraded and licensing regulations change. This is where SAMplicity Plus comes in! SAMplicity Plus is a full end-to-end SAM managed service and covers all your devices, from desktops/laptops, to datacentres, hybrid & cloud environments; and can deliver against a wide range of software vendors.

During the project, you'll receive the following deliverables:

|                                       |   |                                    |                                    |
|---------------------------------------|---|------------------------------------|------------------------------------|
| <b>Estate Review and Gap Analysis</b> | <b>Effective Licence Position (ELP)</b> | <b>Second Hand Resale Report</b>   |                                    |
| <b>Management Report</b>              | <b>Interactive Power BI Interface</b>   | <b>Management of Risk Register</b> | <b>Management of Risk Register</b> |
| <b>Selected Vendor Audit Support</b>  | <b>Renewals Schedule</b>                | <b>Product Metering Review</b>     | <b>Product Metering Review</b>     |

In partnership with EasySAM, we can get you on the front foot with ROI prediction reports - which are based on industry standards and will help you build a business case.

All of this can equal:

- ✓ Up to 20% reduction in software related helpdesk tickets
- ✓ A shortened timescale for any audits that do occur
- ✓ Better due dilligence ahead of new/renewed agreements
- ✓ Becoming less attractive for targeted vendor audits
- ✓ Increased employee productivity
