

Adobe Sign – Feature comparison.

Core features	Single user	Business user	Enterprise
Request signatures. Use web or mobile apps to send documents that recipients can e-sign anywhere, on any device.	x	x	x
Prepare forms. Automatically add signature and business fields to documents before sending using Adobe Sensei intelligence, or create your own custom form fields.	x	x	x
Sign. Recipients click on a link to open and sign. No downloads or sign-ups needed.	x	x	x
In-person signatures. Use the Adobe Sign mobile apps to get handwritten signatures from others in person.	x	x	x
Track and manage. Track responses, get email notifications, and send reminders from anywhere.	x	x	x
Keep records. Store signed documents and audit trails securely and send copies to all parties automatically.	x	x	x
Scan and sign on mobile. Use your mobile device camera to turn paper documents into crisp, clear e-documents before sending to others for signature.	x	x	x
Cross-device signature capture. When signing from a non-touch enabled computer, easily add a handwritten signature by sending a text message to your mobile device.	x	x	x

Written signature workflow. Print, sign, scan, and return documents without a fax machine. Get the accuracy, authentication, and auditability of electronic signing, even when working with handwritten signatures.	x	x	x
Digital signatures. Comply with the most demanding signature laws and regulations. Signers use certificate-based digital IDs to verify their identity using desktop or cloud-based digital signatures.	x	x	x
Stamps. Let participants add a visible business stamp to your document or form, such as a „Received“ stamp, a company seal, or a personalised Hanko stamp in Japan.	x	x	x
Simple e-signature authentication. Invite people to sign by sending an email and optionally ask for a password before signing.	x	x	x
Product support. Get 24x7 in-product chat support.	x	x	x
Microsoft Office 365. Send documents for signature directly from Microsoft Word, Outlook, or PowerPoint.	x	x	x
Box. Send, track, and manage documents directly from your online Box account.	x	x	x

Customisation and optimisation	Single user	Business user	Enterprise
Languages. Let senders and signers adjust their experience by choosing from 34 available languages.	x	x	x
Branding. Easily add logos, taglines, and key messages to create a branded signing experience.		x	x
Shared document library. Store frequently used documents and forms as reusable templates and share across your team.		x	x
Self-serve web forms. Post signable forms on your website so visitors can sign agreements easily.		x	x
Bulk sign. Send one document to many people using the Mega Sign tool so each recipient gets a personalised version to sign.		x	x
Online payments. Collect payments – including contract fees, donations, and online orders – right as customers fill and sign forms. Braintree account required.		x	x
Advanced forms. Add advanced calculations, conditional logic, hyperlinks, and more to forms.		x	x

Your strong IT partner.
Today and tomorrow.

<p>Enhanced e-signature authentication. Ask signers to type a one-time verification code delivered to their phone or use knowledge-based authentication.</p>		+	+
<p>Automated ID-based signer identity verification. Require signers to scan a government-issued ID, like a driving license or passport, using their mobile phone for an automated authentication.</p>			+
<p>Advanced roles and routing. Precisely control business processes to automate signing and approvals, collaboration steps like form filling, delivery to certified recipients, and more.</p>			x
